Summary

- Keen fullstack developer proficient in developing dynamic web and mobile applications throughout all stages of the project lifecycle.
- Comprehensive knowledge of modern development tools and languages, coupled with the ability to write clean, efficient, and maintainable code.
- Strong aptitude for embracing new technologies and an inherent knack for problem-solving.
- Ability to collaborate within a team environment and contribute to a culture of shared ideas and constructive feedback.

Work Experience

Fullstack Developer

Patient Zero Current

- Built and maintained web applications in an Agile environment. Developed reusable components, improved performance, and handled API integrations across multiple services.
- Worked with designers and product owners to deliver features through regular iteration and showcases.

Software Engineer

Labrys 2023 - 2025

- Specialised in building responsive web and mobile applications. Developed and optimised modular components, leveraging modern front and backend frameworks.
- Worked closely with designers to align with UX/UI best practices, while handling server-side development, API integrations, and ongoing bug fixes.

Brand Ambassador

Crumpler 2018 - 2021

- Managed in-store promotions, customer service, phone liaison for repairs and sales, and visual merchandising for Crumpler products. Collaborated effectively with a diverse team, fostering a positive work environment and contributing to shared objectives for sales targets and customer satisfaction.

Key Projects

Trade Hub (Personal) - Deployed Site ↗

- A Next.js app simulating a post-apocalyptic trading hub with authentication, item trading, and an AI materializer using DeepAI, built with Next.js, TypeScript, Tailwind, and Docker.

Local Pegs Mobile App (Labrys) - Download ↗

- A mobile app enabling users to purchase from merchants using an in-app currency system. Built with React Native.
- Payments-driven mobile app with an integrated social media feature, marketplace, and map system.

Glue Network Web App (Labrys) - Deployed Site ↗

- A web app enabling users to trade, earn, and invest in digital assets. Built with Next.js / TypeScript / TRPC / MongoDB.
- Contributed to a complete frontend redesign. Re-styling, improving UI/UX and implementing bug fixes.

Skills and Abilities

Tech Stack & Tools

- Next.js | React | React Native | JS | TS | HTML | CSS
- Tailwind CSS | Shadcn/ui | Figma | Storybook | Lit
- Node.js | Express.js | MongoDB | DynamoDB
- TRPC | Zod | Zustand | React Query | GraphQL
- Python | Flask | SQL | PostgreSQL
- Postman | Docker | VS Code | Git | Vercel
- Jira | Slack | Notion

Key Skills

- Web + Mobile App Development
- Frontend Development
- UX | UI Design
- Responsive | Mobile First Design
- Agile Methodology & Workflow | Jira
- Unit Testing | Troubleshooting | Debugging
- Backend Development | RESTful API Development
- Command-Line Interface (CLI)
- CI / CD

Education

Moonward Apps

Frontend Development Internship

2023

Coder Academy

Diploma of IT - Web Development

2022 - 2023

SAE Institue Brisbane

Associate Degree of Audio Engineering

Coursework 2018 - 2020
